**Test Reports**  
Tested to over 1 million open & closing cycles

Prevents fingers being trapped in a gap between the frame and the rear edge of door. Acts as a light door closing mechanism. Extremely durable and maintenance free. Tested to over 1 million open & closing cycles. Fits any door up to 180° opening. Impact resistant, aluminium housing can be colour coated to any RAL number. Doors are used everyday by everybody but they are potentially dangerous and according to Rospa there are over 30,000 finger injuries every year. Teachers, parents, and carers have become increasingly aware of the danger of children trapping their fingers in closing doors and to avoid accidents recent legislation BS7036 Part 4: item 71 recommends the use

of a finger defender that either fills the finger trap or minimises the gap so as not to create a finger trap. Astro Finger Defender is a high quality, resilient blind that prevents fingers entering the cavity formed between the edge of the door and door frame. The blind is mounted in a robust aluminium housing unlike a concertina style blind, which is constantly exposed and can suffer damage as a result.

Colours: Silver Anodised Finish, Dark Bronze or White. Colour coated to any Ral Colour. Blind black only. Lengths: 1925mm  
Availability: to order in any quantity

Typical wording - 10 / ASTRO FINGER PROTECTA /  
SAF / AFFPROSAF

- Extremely durable and maintenance free
  - Tested to over 1 million open & closing cycles
  - Fits any door up to 180° opening
  - Suitable for Automatic Doors
  - Suitable for most single or double-action doors
- Astro Finger Protecta is a high quality, resilient blind that prevents fingers entering the cavity formed between the edge of the door and door frame. The blind is mounted in a robust aluminium housing unlike a concertina style blind, which is

constantly exposed and can suffer damage as a result. A robust housing protects Astro Finger Protecta when not in use. Independently tested to over 1 million opening & closing cycles and prevents fingers entering the cavity formed between the door and the frame by means of an inflammable blind, which opens and closes with the action of the door. Colours: Silver Anodised Finish, Dark Bronze or White. Lengths: 1925mm. Availability: to order in any quantity.
